O I Your numbers at a glance

Cheiro read a person through two numbers above all: the birth number, fixed by the day of the month you were born, and the name number, from the name you use every day. The first shows the nature you were born with; the second, the way the world meets you. Each also has a compound number, the unreduced total, which Cheiro called the hidden influence behind the single digit.

Your birth number is 6, from the 15th of the month, ruled by Venus in Cheiro's system. All the digits of your date of birth add up to the compound 34.

Your name, Aarav Sharma, adds up to the compound 27, which reduces to 9, ruled by Mars. Your first name, Aarav, makes 11, reducing to 2.

◆ Birth 6 · Birth compound 34 · Name 9 (27)

O2 Your birth number

The birth number comes from the day of the month alone. Cheiro held that it is the strongest single number in a life, because it cannot change: it colours temperament, the kind of work that suits you, and the days and years when things tend to move.

Number 6: The harmoniser

Warm, loyal and artistic: attracts affection, loves beauty and home, and is devoted to the people it cares for.

Strengths: Warmth, loyalty and an eye for beauty and home.

Take care with: Stubbornness in affection and a wish to please; care for yourself too.

Work and money

Number 6 people are drawn to beauty and care: the arts, music, design, hospitality, teaching, healing and home-related work. People trust them easily, which helps in any service role.

Love and friendship

They are devoted and affectionate, and home matters deeply to them; they give a great deal and do best with a partner who gives back as warmly.

Health, as Cheiro saw it

Cheiro linked number 6 with the throat, nose and chest, and with the heart in later years; he advised plenty of open air.

Cheiro also wrote about the parts of the body each number's planet was said to govern. These are traditional notes, not a diagnosis: for any health concern, please see a doctor.

O3 Your name and its compound

Your name number is worked out letter by letter with the Chaldean values, which Cheiro preferred because they follow the sound of each letter. Nine is never given to a letter: Cheiro treated it as a number apart. The name to read is the one people call you by most, not necessarily the one on your certificates.

The working: $A\ 1 + A\ 1 + R\ 2 + A\ 1 + V\ 6 + S\ 3 + H\ 5 + A\ 1 + R\ 2 + M\ 4 + A\ 1 = 27$.

Compound 27

The sceptre: authority and command earned through creative thought; fortunate.

It reduces to 9, the fighter. Brave, energetic and determined: a fighter for its causes, generous, quick-tempered, and never gives up.

People tend to meet you first through this number's qualities: courage, energy and loyalty to your causes.

Your first name: II

The clenched hand: hidden trials and opposition that test your strength; stay alert to others' motives.

Cheiro read the first name as the self that close friends and family know, the name used by the people nearest to you.

O4 Name and birth in harmony

Cheiro's rule of harmony: numbers of the same "vibration" support each other. 1 and 4 belong together, as do 2 and 7 (Sun with Uranus, Moon with Neptune); 4 and 8 are linked; 3, 6 and 9 form one family; and 5, the number of Mercury, gets on with every number.

Your name number and birth number are in harmony by Cheiro's rules, which traditionally helps the name support your nature.

For your birth number 6, the numbers in harmony are 3, 5 and 9. Cheiro used the same rule for people: partners, friends and colleagues whose birth numbers are in this list tend to understand you more easily, and dates and house numbers that reduce to them are counted favourable.

We never suggest changing a name: numerology is a tradition for reflection, and your name is yours.

05 The compound numbers in your life

Cheiro gave the compound numbers from 10 to 52 their own symbols, many drawn from the old Tarot and Chaldean tradition. The single digit shows how you appear; the compound shows the forces working underneath. Above 52, the total is reduced again.

Your date of birth: 34

Like 25: strength through experience.

Its single number is 7, the mystic.

Your full name: 27

The sceptre: authority and command earned through creative thought; fortunate.

Its single number is 9, the fighter.

Your first name: 11

The clenched hand: hidden trials and opposition that test your strength; stay alert to others' motives.

Its single number is 2, the imaginative.

06 Your important years

Cheiro counted as important the years of life whose digits add up to your birth number: at such ages new starts, moves and turning points are more likely. For 1, 2, 4 and 7, whose planets are paired, the years of the partner number count too.

Important ages already passed: 6, 15, 24 and 33. Looking back at these years is a good way to test the tradition for yourself: note what began or changed then.

Coming important ages: 42 (in 2033), 51 (in 2042), 60 (in 2051), 69 (in 2060) and 78 (in 2069).

Cheiro advised using such years for plans you want to take root, rather than waiting for them to happen.

O7 Days, dates, colours and stones

Each number has days of the week, dates, colours and stones that Cheiro held to be in tune with it. The strongest days of all are those where a lucky date falls on a lucky weekday. Use them for starts that matter to you: interviews, signing, travel, launching something new.

Your days: Tuesday, Thursday and Friday. Your dates in any month: 6, 15 and 24.

The next days where both meet: 6 October 2026, 15 October 2026, 6 November 2026, 24 November 2026, 15 December 2026 and 24 December 2026.

Colours: Blue in every shade, rose and pink. Stones: Turquoise and emerald. Cheiro recommended wearing or keeping your colours near you, especially on your days; stones are optional and a matter of taste.

The times of year that favour you most: 20 April – 27 May and 21 September – 27 October. These follow the Western zodiac periods Cheiro linked with your number.

08 How this report was made

Your numbers use the Chaldean letter values as Cheiro gives them in Cheiro's Book of Numbers (1926): 1 to 8, with nine never given to a letter. Compound numbers keep their own meaning up to 52. The report follows Cheiro's own Western system only; Indian (Vedic) numerology has its own section on iAstroGuru. The readings are written in our own words. Numerology is a tradition for reflection, not a prediction, and nothing here is medical, legal or financial advice.

Calculated by the Chaldean system of Cheiro's Book of Numbers (1926).
