01 How to read your dashas

Aarav, the Vimshottari dasha divides life into chapters, each ruled by a graha. The order starts from the nakshatra of your Moon at birth, Chitra, whose lord is Mangal, so your life began in Mangal Mahadasha.

What decides a chapter's flavour

Each Mahadasha is divided into Antardashas, sub-periods ruled by each graha in turn. What a period brings depends on three things in your own chart: which houses its lord rules, where its lord sits, and how strong the lord is. The same graha can be a blessing in one chart and a lesson in another.

Everything below is read that way, from your chart. These are tendencies and themes, never certainties: dashas describe the weather of a period, and you still choose how to walk through it.

02 The chapter you are in

Guru Mahadasha, 2011 to 2027

You are in Guru Mahadasha from 26 August 2011 to 26 August 2027. Your Guru rules your 5th house of intelligence and merit and your 8th house of change, and he sits in your Lagna as part of your Raja and Dhana yogas. This has traditionally been the chapter of learning, advice, growth and the first appearance of your yogas.

The final sub-period is Rahu Antardasha, from 1 April 2025 to 26 August 2027. Rahu sits in your 5th house, so these months bring restlessness, new ideas and a wish to try something different. Treat them as research for the chapter that follows rather than the moment for irreversible bets.

- ◆ Now: the last sub-period of Guru Mahadasha, Rahu, until 26 August 2027.

The next Mahadasha, sub-period by sub-period

From 26 August 2027 to 26 August 2046 you are in Shani Mahadasha. Your Shani is strong, in his own sign Makara in your 6th house, forming Harsha yoga, and he rules your 6th and 7th houses. Nineteen years of steady building, responsibility and commitment.

2027 to 2033

Shani-Shani, August 2027 to August 2030: foundations. The role, business, partnership or routine you commit to now is likely to carry you for many years. Work and marriage themes both come forward, as Shani rules your 6th and 7th houses.

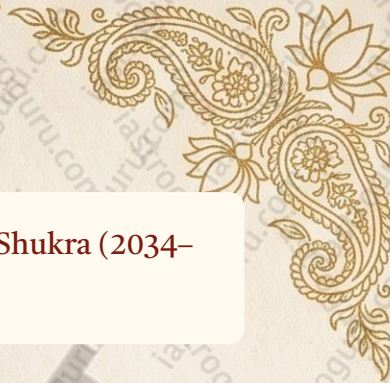

Shani-Budh, August 2030 to May 2033: Budh rules your 2nd and 11th houses of savings and gains and sits in your Lagna. Traditionally the strongest window of the decade for income, skills and building wealth.

2033 to 2038

Shani-Ketu, May 2033 to June 2034: a quieter, more inward year. Ketu sits in your 11th house, so it favours specialist work and a smaller, trusted circle over expansion.

Shani-Shukra, June 2034 to August 2037: Shukra rules your 10th house of career and your 3rd house, and sits in your Lagna. Traditionally a strong period for recognition, status, comfort and relationships.

Shani-Surya, August 2037 to July 2038: your Lagna lord, placed in the 12th house. Attention turns to health routines, rest, private work and possibly travel or time abroad.

- 
- 
- ◆ Standout sub-periods: Budh (2030–2033) for wealth and Shukra (2034–2037) for career and recognition.

2038 to 2046

Shani–Chandra, July 2038 to February 2040: the Moon rules your 12th house and sits in your 3rd. Your Sade Sati also begins in October 2038, so this is a period to protect rest, keep expenses planned and lean on the people close to you.

Shani–Mangal, February 2040 to April 2041: your Yogakaraka, lord of the 4th and 9th, in your Lagna. Initiative returns, and home, property and fortune come forward.

Shani–Rahu, April 2041 to February 2044: Rahu in your 5th house brings new directions, unconventional opportunities and possibly foreign links, still inside the Sade Sati, so pace yourself.

Shani–Guru, February 2044 to August 2046: the lord of your 5th returns, and the Mahadasha closes with wisdom, advice, family and the fruits of the long Saturn chapter.

04 The one after

Budh Mahadasha, 2046 to 2063

From 26 August 2046 you enter Budh Mahadasha for seventeen years. Budh rules both your money houses, the 2nd and the 11th, and sits in your Lagna as part of your Dhana yoga. Traditionally this is a long period of earnings, communication, advising and enjoying what you have built. Your Budh is retrograde and combust, which suggests that reviewing, teaching and refining your own expertise suits this chapter better than starting from scratch.

05 Peaks and quieter years

Where the chart shines

The strongest stretches of the next twenty-five years are Shani–Budh (2030–2033) for wealth, Shani–Shukra (2034–2037) for career and status, Shani–Mangal (2040–2041) for initiative, and the opening of Budh Mahadasha in 2046. Before all of these, Jupiter’s transit over your Lagna in 2026 and 2027 adds a lift of its own.

The periods that ask for patience are the Dhaiya from August 2029 to May 2032, which overlaps Shani–Shani and Shani–Budh, and your Sade Sati from October 2038 to December 2046, which falls in the later Shani sub-periods. Because your Shani is strong, tradition reads these as demanding rather than harsh: more responsibility, and results that last.

- ◆ Peaks: 2030–2033, 2034–2037, 2040–2041 and from 2046. Patience: 2029–2032 and 2038–2046.

06 Traditional practices

For the Shani years

Since Shani rules nineteen of the next twenty-five years, his practices matter most: a sesame-oil lamp on Saturdays, the Shani stotra or Hanuman Chalisa, service to elders and to people who work hard with their hands, and above all keeping your word and a steady routine.

For each sub-period, the tradition adds the practice of its lord on its own day: Wednesday and the Vishnu Sahasranama for Budh, Friday and beauty and generosity for Shukra, Tuesday and the Hanuman Chalisa for Mangal, Thursday and respect for teachers for Guru.

07 How this report was made

Every dasha date was calculated by the iAstroGuru Engine from your Moon's position, using the Vimshottari system with 365.25-day years, the Lahiri ayanamsa and whole-sign houses.

The text was written from these calculated facts and checked automatically against the chart before release. Astrology is an interpretive tradition, not a scientifically established way to predict events, and nothing here is medical, legal or financial advice. This sample was prepared for a fictional person, Aarav Sharma.

Calculated by the advanced iAstroGuru Engine, tested for accuracy against trusted references.

Automated interpretation of these calculations; every report passes our multi-layer quality assurance.
