07 How this report was made

O I Rahu and Ketu in your birth chart

Aarav, Rahu and Ketu are the lunar nodes, the two points where the Moon's path crosses the Sun's. They are always exactly opposite, and they move backwards through the zodiac, spending about eighteen months in each sign.

Your natal axis

Your Rahu sits in Dhanu (Sagittarius) at 23°25' in your 5th house, in Purva Ashadha pada 4, and your Ketu sits in Mithuna (Gemini) at 23°25' in your 11th house, in Punarvasu pada 2. Your natal axis runs between the 5th house of creativity, study and children and the 11th house of gains and networks.

Rahu in the 5th pulls you towards original ideas and new fields; Ketu in the 11th gives a detached attitude to large circles and to gain for its own sake. The lesson of this axis is to create something of your own and let recognition follow.

O2 The nodes' path, with dates

Three stays in two years

Rahu's transit is in Kumbha (Aquarius) until 5 December 2026, with Ketu's transit opposite in Simha (Leo). From 5 December 2026 to 23 June 2028 Rahu's transit is in Makara (Capricorn) and Ketu's in Karka (Cancer). From 23 June 2028 Rahu's transit enters Dhanu and Ketu's enters Mithuna.

That last move is special: from June 2028 both nodes are back in the signs they held at your birth. Tradition calls this the node return, and it comes roughly every eighteen and a half years.

- ◆ From 23 June 2028 both nodes return to their birth signs: your node return, about every eighteen and a half years.

03 House by house

Each stay is read from your Lagna, Simha, and from your Moon, Tula.

Until 5 December 2026: Rahu's transit in your 7th, Ketu's over your Lagna

Rahu's transit through Kumbha, your 7th house and the 5th from your Moon, can make partnerships, contracts and dealings with the public feel unsettled or unusual, and it can bring unconventional people into your life. Ketu's transit over Simha, your Lagna, gives a restless, inward mood: questioning who you are and what you want. Take important partnership decisions slowly in these weeks.

December 2026 to June 2028: Rahu's transit in your 6th, Ketu's in your 12th

Rahu's transit through Makara, your 6th house and the 4th from your Moon, is traditionally one of Rahu's very best transits: success in competition, problem-solving, hard work and service, and an unusual ability to deal with difficult people and situations. Your 6th house already holds your own-sign Shani, so this transit supports determined, practical effort. From the Moon, the 4th asks for some care with home and peace of mind.

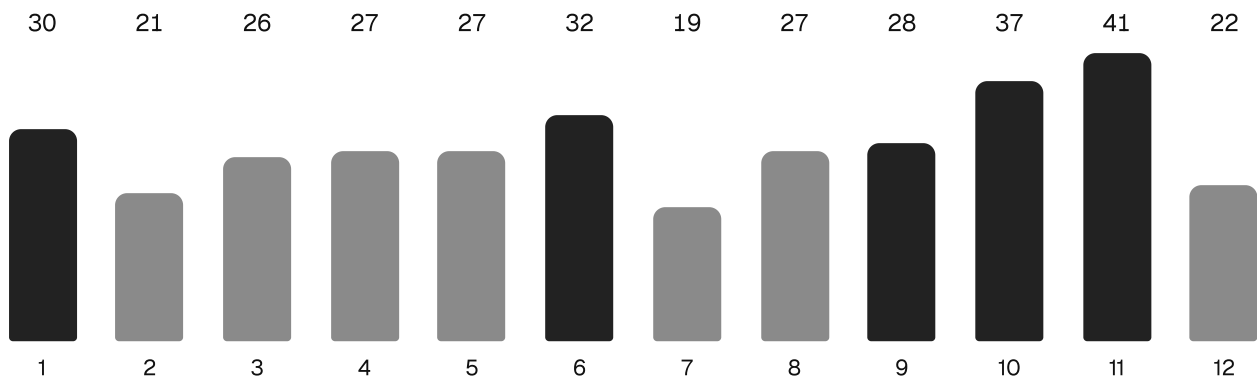

Ketu's transit through Karka, your 12th house and the 10th from your Moon, favours retreat, meditation, research, foreign travel and letting go of commitments that no longer fit. It is a good period for quiet, behind-the-scenes work.

- ◆ December 2026 to June 2028: Rahu's transit through your 6th house, one of his best, for competition and hard work.

From June 2028: the node return

Rahu's transit returns to Dhanu, your 5th house and the 3rd from your Moon, and Ketu's returns to Mithuna, your 11th house. A node return often reawakens the themes of your natal axis: creative projects, study and new ideas on one side, and a fresh look at friendships and gains on the other. It is a natural moment to start something original.

Sarvashtakavarga by house

Bindus per house (total 337). 28 or more is traditionally strong; under 25 asks for care.

O4 The nodes and your dasha

Rahu Antardasha until August 2027

You are in Rahu Antardasha within Guru Mahadasha until 26 August 2027. When the transiting Rahu and the sub-period of Rahu run together, Rahu’s themes are felt more strongly: curiosity, ambition, unusual opportunities and restlessness. The move of Rahu’s transit into your 6th house in December 2026 turns that energy towards work and competition, which is its most productive outlet.

Your Shani Mahadasha begins on 26 August 2027, and its Rahu Antardasha comes later, from April 2041 to February 2044.

Vimshottari Mahadashas

Mangal 1991–1993	Rahu 1993–2011	Guru 2011–2027
Shani 2027–2046	Budh 2046–2063	Ketu 2063–2070
Shukra 2070–2090	Surya 2090–2096	Chandra 2096–2106

O5 Working with the axis

A simple plan

Until December 2026, go slowly with new partnerships and read every contract twice. From December 2026, commit to one demanding goal, an exam, a hard project or a competitive application, and let Rahu's transit through your 6th house help you through it. Use Ketu's transit through your 12th house for rest, study and letting go. From June 2028, start the creative or learning project your chart has been pointing towards.

06 Traditional practices

For Rahu and Ketu

Rahu is traditionally balanced by devotion to Durga, by reciting the Durga Chalisa, and by feeding stray animals, especially dogs. Ketu is balanced by devotion to Ganesha and by quiet spiritual practice.

The most practical node remedy is honesty and simplicity: avoid shortcuts, keep your paperwork in order, and give your restlessness a real goal to work on.

07 How this report was made

The nodes' sign changes were calculated by the iAstroGuru Engine using the mean lunar node, using the Lahiri ayanamsa and whole-sign houses. Almanacs using the true node may differ by some days.

The text was written from these calculated facts and checked automatically against the chart before release. Astrology is an interpretive tradition, and nothing here is medical, legal or financial advice. This sample was prepared for a fictional person, Aarav Sharma, for the two years from 29 September 2026.

Calculated by the advanced iAstroGuru Engine, tested for accuracy against trusted references. Automated interpretation of these calculations; every report passes our multi-layer quality assurance.
