07 How this report was made

O I Your natal Shani

Aarav, before any Sade Sati date, the most important fact about Saturn in your life is where Shani sits in your own birth chart. That decides whether his periods feel like pressure or like steady construction.

Strong, in his own sign

Your Shani is in Makara (Capricorn) at 8°23', in Uttara Ashadha pada 4, in your 6th house. Makara is one of Saturn's own signs, so he is dignified and comfortable here. The 6th house, Ripu bhava, is the house of daily work, service, health routines, competition and overcoming obstacles. Saturn is at his best in this house: he rewards patience, discipline and consistent effort, and he helps you outlast problems that defeat other people.

Shani here forms Harsha yoga, one of the Vipareeta yogas: the lord of a difficult house sitting in a difficult house, which classical texts say turns adversity into strength. It is one of the most protective placements Saturn can have.

- ◆ Own-sign Shani in the 6th house, forming Harsha yoga: Saturn is a working ally in your chart.

What he rules, and his retrograde motion

For your Simha Lagna, Shani rules the 6th house and the 7th house, the house of marriage and partnership. So Saturn is not only your teacher about work and health; he is also the lord of your marriage house. His periods therefore touch partnership as much as career.

Your Shani was retrograde at birth. A retrograde Saturn traditionally works inwardly first: lessons are revisited, plans are reworked, and results come after a second, better attempt. In the Navamsa your Shani sits in Meena (Pisces), a sign of faith and service, which softens his seriousness with compassion.

O2 Sade Sati and Dhaiya: your dates

Sade Sati is transiting Saturn's passage over the 12th, 1st and 2nd signs from your Moon, about seven and a half years. A Dhaiya is his transit through the 4th or 8th sign from the Moon, about two and a half years. Your Moon is in Tula (Libra).

Every period, with dates

Your last Dhaiya, with transiting Saturn in the 4th from your Moon, ran from 24 January 2020 to 17 January 2023.

Nothing is running now. Your next period is a Dhaiya, with transiting Saturn in the 8th from your Moon, from 8 August 2029 to 30 May 2032.

Your Sade Sati runs from 22 October 2038 to 7 December 2046. After it, the next Dhaiya, with transiting Saturn in the 4th from your Moon, runs from March 2049 to February 2052.

◆ Now: no Saturn period. Next: Dhaiya from August 2029 to May 2032. Sade Sati: October 2038 to December 2046.

What this means for the next few years

You have a clear run until 2029. That is valuable: it is the time to build the routines, savings and relationships that make a Saturn period easy to carry. People who meet a Dhaiya with their affairs in order usually find it a period of consolidation rather than strain.

03 Phase by phase

Each part of a Saturn period falls in a particular house counted from your Lagna, and that tells you where in life the work will be.

The Dhaiya of 2029 to 2032

During this Dhaiya, transiting Saturn moves through Vrishabha (Taurus), the 8th sign from your Moon and your 10th house counted from the Lagna. The 8th from the Moon traditionally asks for care with health routines, shared money and sudden changes. From the Lagna, the 10th house is your career. So this period is likely to bring heavier responsibility at work, more scrutiny and slower recognition, alongside a need to look after your energy.

Your 10th house scores 37 in the Sarvashtakavarga, one of the strongest scores in your chart. A strong house takes a Saturn transit well: the work is real, but so is what it builds.

The Sade Sati of 2038 to 2046

The rising phase has transiting Saturn in Kanya (Virgo), the 12th from your Moon and your 2nd house from the Lagna: attention to savings, family and speech, and to spending that needs a plan. Your 2nd house scores 21, so this is the phase to prepare for most, with a saving habit in place well before 2038.

The peak phase has transiting Saturn in Tula, over your Moon itself and in your 3rd house from the Lagna: courage, effort, communication and siblings. This is traditionally the most intense part, when the mind feels Saturn most, and also when steady effort pays best.

The setting phase has transiting Saturn in Vrishchika (Scorpio), the 2nd from your Moon and your 4th house from the Lagna: home, property, mother and inner peace. It is usually the gentlest phase, a time of settling what the earlier years built.

O4 Shani in your dashas

Transits are only half of Saturn's story. The other half is the dasha, the chapter of life that Saturn himself rules.

Shani Mahadasha, 2027 to 2046

You are in the last sub-period of Guru Mahadasha, Rahu Antardasha, until 26 August 2027. On that date your Shani Mahadasha begins and runs for nineteen years, to 26 August 2046. Because your Shani is strong, in his own sign and forming Harsha yoga, this is traditionally one of the most productive chapters a chart can have: steady progress, responsibility for people and systems, and results that last.

Shani rules your 6th and 7th houses, so the Mahadasha is likely to bring both serious work and serious commitment in partnership. Many people make their most durable decisions about career and marriage in the Mahadasha of the lord of their 7th house.

♦ From 26 August 2027: nineteen years of Shani Mahadasha, with Saturn strong in your chart.

The sub-periods

Shani–Shani runs to August 2030 and lays the foundation. Budh follows to May 2033; Budh rules your 2nd and 11th houses of savings and gains, so this is traditionally the period for income. Then come Ketu to June 2034, Shukra to August 2037, Surya to July 2038, Chandra to February 2040, Mangal to April 2041, Rahu to February 2044 and Guru to August 2046.

Notice that your Sade Sati, from October 2038, falls inside your own Shani Mahadasha. When the dasha lord and the transiting planet are the same strong Saturn, tradition reads the Sade Sati as part of a single long, well-supported Saturn chapter rather than a separate trial.

O5 Saturn's transits, house by house

The next two years

Saturn's transit is in Meena (Pisces) until 3 June 2027: your 8th house from the Lagna and the 6th from your Moon. The 6th from the Moon is one of Saturn's best transit positions, so despite the 8th-house themes of change and shared finances, the period supports hard work and getting the better of problems.

Saturn's transit moves into Mesha (Aries), your 9th house of fortune, teachers and faith, from June to October 2027, returns to Meena until February 2028, and then settles in Mesha. The 9th-house transit favours study, teaching, long journeys and long-term plans, and it begins just as your Shani Mahadasha opens.

06 Traditional practices

Because your Shani is strong, the tradition advises cooperation with Saturn rather than fear of him.

Saturday and service

Saturday is Shani's day. Lighting a sesame-oil lamp on Saturday evenings, reciting the Shani stotra or the Hanuman Chalisa, and giving food, blankets or help to labourers and the elderly are the classic practices, especially from 2027 as the Mahadasha begins.

Saturn values what he represents: keeping your word, fair treatment of people who work for you, punctuality, and a tidy, orderly life. For a chart where Shani already sits in his own sign, these habits are the most effective remedy of all. Blue sapphire is traditionally worn for Saturn only after a trusted astrologer has examined the whole chart and the stone has been tested first.

07 How this report was made

All dates were calculated by the iAstroGuru Engine, using the Lahiri ayanamsa, whole-sign houses and Vimshottari dashas. Saturn's sign changes are found to within minutes; almanacs with slightly different settings may differ by a few hours.

The text was written from these calculated facts and checked automatically against the chart before release. Astrology is an interpretive tradition, not a scientifically established way to predict events, and nothing here is medical, legal or financial advice. This sample was prepared for a fictional person, Aarav Sharma.

Calculated by the advanced iAstroGuru Engine, tested for accuracy against trusted references. Automated interpretation of these calculations; every report passes our multi-layer quality assurance.
